

## Application for Registration or Store Licence under the Manufacture and Storage of Explosives Regulations 2005

- Please read the guidance notes before completing this form.
- Please use this form if you plan to store smokeless powder or any explosive requiring an explosives certificate
- Please note that it is an offence under Section 33 of the Health and Safety at Work Act to provide false information. Incomplete or inaccurate information could result in a delay in processing your application.
- The information entered in this form may be stored electronically. The information may, where appropriate be shared with other relevant bodies such as other licensing authorities or the Health and Safety Executive. You have the right to request a copy of any personal information and to have any inaccuracies corrected.

### Part A – Details of the Applicant

Name of applicant

Please put name of company or partnership if this is a corporate application

Address (including postcode)

Daytime tel no

Email

Fax No

### Name and address of contact for queries regarding this application

Name of Contact

Address (if different from above)

Daytime tel no

Email

Fax No

### Part B – Store location (if different from applicant's address)

Please state below the full address (including postcode) where the store is located

<input type="text"/>	Postcode
	<input type="text"/>

### Details of the person with management responsibilities for the store

Name of Contact

Position

Address (if different from above)

Daytime tel no

Email

Fax No

**Out of hours contact details** – please give the name and telephone number, including mobile if appropriate, of the person to be contacted in an emergency

Name

Telephone no

Mobile no

**Part F – Signature of applicant (or applicant's representative)**

Signed  Date

Name  Position

Organisation (if applicable)

Please return this form plus maps to:

**The information gathered in this form may constitute personal data as defined in the Data Protection Act 1998. Any personal data will be processed in accordance with the requirements of that Act.**

**Guidance to applicants applying for a licence or registration certificate for smokeless powder or an explosive requiring an explosives certificate**

Please complete the application form using **black** ink or type. If there is insufficient room to provide the information requested please continue on a separate sheet(s). You should also put your name and address at the top of each sheet(s) before attaching the sheet(s) to your application form.

Please contact your local police Explosives Liaison Officer if you have any questions about completing this form or about your application.

**This form should only be used if any of the explosives you plan to store include either smokeless powder or explosives that require an explosive certificate – for example, blasting explosives, detonators, or black powder.**

You can store up to 2 tonnes of explosive under a licence from the police. If you wish to store more than 2 tonnes you will need a licence from the Health and Safety Executive.

Examples of the maximum quantities that can be stored under a registration are:

- 30 kg of shooters' powder and 250 kg of small arms ammunition and percussion caps;
- 100 kg of Hazard Type 3 smokeless powder;
- 30 kg of blasting explosive.

Please seek further advice from your supplier if you are uncertain about the hazard type of the substances you wish to store.

The quantities referred to are the '**net mass**' of the explosives. This means the weight of the explosive contained within an article (ie less packaging, casings etc).

If you are applying for a licence or if the location does not have a postal address, please include a map showing the location of the store. This should be a minimum scale of 1:25,000. If the store is subject to separation distances you will also need to provide an Ordnance Survey Siteplan (or similar) map showing the location of the store and distances to any neighbouring buildings. The scale will depend on the separation distance for a distance up to 200 metres a 1:1250 would normally be required while greater distance would require a 1:2500 or even a SuperPlan.

*Period of validity:* registration certificates and licences will normally be granted to run concurrently with explosive certificates.

**Important notes**

It is your responsibility to ensure you are aware of, and complying with, the regulations on the manufacture and storage of explosives.

The police may prohibit storage of explosives at the site if it believes the site is unsafe. They may also take enforcement action if you are not storing safely.
